EDMONTON BULLETIN, APRIL 26TH, 1894.

WHO IS RIGHT?

A letter from Mr. John Fluker, now of Deep Creek and formerly of Parry Sound, in which he challenges the meek and lowly editor of this journal to combat on a question of the respective veracity of Mr. Fluker and of the BULLETIN appears in full in another column. The BULLETIN regrets exceedingly that it should fall under the displeasure of any settler of the district, as it evidently has under that of Mr. Fluker, or that any question of veracity should come up in which it is concerned. In case of any such question arising the editor would willingly travel to Poplar lake or even to Deep Creek to set the matter right. In this particular case, however, Mr. Fluker has kindly saved the editor from the necessity of making such trip, as he has by the letter now published specifically admitted the only two questions as to his veracity raised by the BULLETIN. Considering these questions one at a time; Mr. Fluker wrote to a Mr. Dunn of Parry Sound district, "If I had the means I would not stay 24 hours in this poverty stricken frost smitten hole." The BULLETIN objected to this statement on the grounds, 1st that Mr. Fluker could get out if if he wanted to, and 2nd that as far as he was concerned he had not found it either poverty stricken or frost smitten. The fact that by his present letter Mr. Fluker wants his passage paid and a refund of whatever capital he brought with him as a condition of his going, stamps his first assertion—that he would go if he could—as exactly what the BULLETIN said it was, a case of talking for talking's sake. As to the crops raised by him, Mr. Fluker admits that they were as the BULLETIN said, fairly good crops. A district in which a new settler raises two fairly good crops two years in succession cannot be either frost smitten or poverty stricken. Question No. 2 runs as follows: Mr. Fluker wrote to Mr. Dunn that there was "lots of truck and trading but no money in the country." This the BULLETIN flatly contradicted. In his present letter he admits having sold all the grain he had to spare and that he got 20c. to 23c. in cash for his oats, that he could have got more in trade, and that the prices after he sold were much higher. Nothing more need be said on that point. The BULLETIN in its comments on Mr. Fluker's letter to Mr. Dunn did not call that gentlemen any hard names, but since he has seen fit to use the word liar in his communication intended for publication, the BULLETIN in making a fair comment upon it is compelled to say that its contents prove that in Mr. Fluker's letter to Mr. Dunn were contained a number of falsehoods, which if they were intended for publication were uttered maliciously and with the intent of injuring not only the best interests of this district but also of the people who were likely to remove to it, and who the said falsehoods prevented from doing so. The BULLETIN has taken so much trouble with this subject chiefly to show that the statements made by it are not lightly made.

BEE KEEPING.

Thos. Henderson gives the following information regarding the successful wintering of his bees last season.

HONEY GLADE, April 18, 1894.

We put our bees in the cellar on the 15th of October, 1893, and took them out on the 18th of April 1894, about one month earlier than last year. They have come out in first-class order and none lost. This is the first time my bees have wintered without loss since I commenced bee keeping in Edmonton in 1888. They have consumed more honey per colony this winter than in any previous one, but are stronger in numbers this spring than ever before. My hives are of two sizes, one weighing 55 lbs. and the other 34 lbs. empty. Each hive is numbered separately. The following table will show the weight of each one as it went in and came out of the cellar.

IMPROVED DAIRY TEACHING.

SIR,—I am in receipt of a letter from Dairy Commissioner Robertson stating that two travelling dairies will be sent west this season to operate in Manitoba and the Territories, beginning as early in the season as the other work of farmers will permit their being present. He proposes that each have two meetings at each place, and two such meetings in every week. I have already advised the Farmer's Institutes and Patrons of Industry through their several secretaries to do what they can to work up an interest in these meetings, and there is a good response to that request. But any group of farmers with or without connection with such organizations may have a visit provided they make application and really represent the wishes of enough people to make it worth while to send an instructor. They will be put to no expense and the milk they furnish (say from fifteen cows) will be manufactured and the butter returned to them. To enable us to plan routes it is highly important that all applications shall be sent to me as early as possible, and applications from any point in the Territories will have equal attention with those from Manitoba. Mr. Robertson himself cannot be with us till later, and that only on a visit. I trust this notice will have full attention from all parties interested in advanced dairying.

RICHARD WAUGH,
Secretary-treasurer of Manitoba Dairy Association.

Winnipeg, April 17.

P. S. It will be a great advatage if when applications are put in, a list of from six to twelve of the leading farmers in the vicinity are sent along with the application. Notices will be sent to such men as well as to the society or persons who apply as to the arrangements made, so that the meetings may be advertised in the very best manner.

MR. EDITOR,—

In your issue of the 9th instant I see you have dragged my name before the public in a rather damaging style. As I have never before been branded as a liar I sincerly ask proof for your assertions; and I will meet you either at Poplar Lake or at Edmonton any time that it is possible to get there. Fetch your proof along and I will do my best to defend myself and will own to the lie if you can prove that my wheat was not frozen both years. True, last year I raised a good crop on Mr. Riley's place but I lost more than the seed by shovelling the snow off the stooks. I thought it was better to do that than run the chance of another storm, as I got the grain gathered at least a week sooner. Perhaps you will try to make this a lie, too, but put me the test and we will see; and I have ample proof that my crop was among the earliest cut around Poplar Lake. You try to make out that off the rented place I made a living and fitted up my homestead. Again I would like to know where you got your knowledge; as my boys furnished the means to keep us while we did the improvement on the claims; though one of them had to go to Pincher Creek, over 200 miles, to get the means to do so. I don't know what you call a place in good shape, but if a bit of a mud covered shack and two other log out buildings that in a country where log buildings are used would be worth $20.00 a piece, then you are easily satisfied. You think it a mystery why I find fault with the country. The simplest things in this life are always the greatest mysteries to us when we are ignorant of their pros and cons; and it instead of dozing in the midst of mysteries in your editorial chair you would seek for truthful matter for your readers some of them would think more of you. I said that I would leave in 24 hours if I had the means, and meant it then, and do so yet. Just test me by coming and giving me what will take me back, and what I brought to the country, and you will see how quickly I will jump at it. I won't ask a cent for my two years rustling that you give me credit for. I can't take back the name I give it. And now for the proof. I have been two years around Edmonton and in the 24 months there has not been one month but I can prove there has been frost. If that is not enough to satisfy you it is a frost smitten country, it is at least five months in the year too many to convince me, and that it is the worst place I ever struck to make a dollar in I still say, and since you have dragged my private affairs before the public we will test it. You say I grew two fairish crops since I came here, and as you ought to be the best judge we'll let it go so. Now for results. As I can prove any statement I make. First year as I expected was all out. Even though I farmed 25 acres of the best land around Edmonton belonging to James Dinner. I will say nothing about that year for I am ashamed of it. Next year I farmed 30 acres of prime land of Mr. Riley's and as you say had as good a crop off it as any round Poplar lake. I put it in in good shape and as early as most round the lake, got it off in as good shape as the snow storms would allow me and certainly before many around the lake. After disposing of all that I could reasonably part with and give my teams and family anything like justice to live on, I found I was still behind, which I can prove, for cutting $22.26, threshing $20.00, and to a store keeper in Edmonton $28 and some cents, the last I took out of the crop and it took a pile of oats at 20 cents to make it up, leaving our horses that much short. The other $42.25 my son paid or it would have left me nothing. So much for farming. And then you would find fault with me for saying it is a hard place to make a dollar in. I don't know what you call a dollar made, but what I have been used to call a made dollar was one that after paying all necessary expenses belonging to any business you had a dollar to put in your pocket. This is what I have not made off the farm since I came here. You quote prices that now when the roads are impassible and no one can put out stuff, they may offer, but I found it hard work to sell most of the winter for 20 cents for oats and for only one load did I get 23 cents, though no fault was found with my grain. As I said, I could have traded them out for more. But as my time is precious, if I don't want to hunger next year, I must to business now. Mr. Editor kindly name when and where you will meet me with the proof of your assertions and make me the liar you have branded me. Remember I will take no explaining away, for I think you have stepped far beyond your privilege and duty as a journalist in meddling with a man's private affairs until you know what you are writing about. Now either prove up or definitely own up that you have been lying about me, instead of me lying about the country. Please excuse me writing with a pencel as I had not 10 cents the last time I was in town to buy ink.

Humbly yours,
JOHN FLUKER.

Fort Saskatchewan,
April 20th, 1894.

MANITOBA.

The president of the patrons of industry in Manitoba writes as follows to the Winnipeg Tribune:

In travelling around, I find there are many who have not seed to sow their land; many have been assisted by the government to obtain seed through their municipalities, but very many have been refused and are not able to get it at all. Some have got it through these 18 to 24 per cent men, but many cannot get it that way because they cannot give a chattel mortgage covering $800 to secure $100. Now, I have heard of one loan company providing the seed to those on land mortgaged to them, which, if true and it is done on reasonable terms, is commendable. Why should not all these men who hold chattel mortgages on settlers' effects provide their debtors with seed? They are the ones that should do it, since they will receive the benefit. Besides, if it were not for their preferential claim the settler might get it elsewhere. The banks might help him, his friends might help him. But there is the dog in the manger, he will neither eat the hay himself nor let anyone else with peace and safety. The man's claim against the chattels may be a just one and he may have no desire to crowd the creditor, but the fact of him having that preferred claim kills the settler's credit. Then there is another thought that I wish to mention, the fixed charges against the coming crop. According to the attorney-general's statement, there are three millions of dollars in chattel mortgages, bearing from 12 to 24 per cent. Then, if I am rightly informed, it will take another million dollars to pay interest on the real estate. Then there are the personal debts, book accounts, notes of hand, etc. All this is due and payable next fall out of the incoming crop. This is not an encouraging picture, but they are facts, and we want to look them square in the face and get down to bedrock. We have the country and we have the people. Give them justice in freight rates, in tariff regulations and the unfortunates a helping hand in their hour of need and then by the blessing of Providence, prosperity will yet be ours.

Yours truly,
CHAS. BRITHWAITE,
President Patrons of Industry,
Portage la Prairie, April 16.

ARBOR DAY!

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the faith, etc., etc.

C. H. MACKINTOSH,
[SEAL] Lieutenant-Governor

To all whom these presents shall come or whom the same may concern:

GREETING:

Whereas by Ordinance No. 3 of 1892 entitled "An Ordinance to encourage the Planting of Trees," it is enacted that the Lieutenant-Governor-in-Council may in each year, by Proclamation, appoint a Public Holiday to be observed throughout the Territories for the planting of Forest and other Trees.

Now know ye that, by and with the advice of the Executive Committee of the Territories, under the authority vested in Us as aforesaid, We do hereby appoint Thursday, the 10th day of May next a Public Holiday, to be observed throughout the Territories as "Arbor Day," and by these presents we do earnestly invite all the inhabitants of the said Territories to devote the above mentioned day to the planting of trees; and we request all Municipal, Religious and School Corporations to heartily co-operate for the success of an object which cannot fail to prove of vital importance to the Territories;

Of which all persons whom these presents may concern are hereby required to take notice and govern themselves accordingly.

IN TESTIMONY WHEREOF We have caused the Seal of the Northwest Territories to be hereunto affixed. Witness, His Honor Charles Herbert Mackintosh, Lieutenant-Governor of the Northwest Territories, at Government House, Regina, in the said Territories this thirteenth day of April, in the year of Our Lord one thousand eight hundred and ninety-four and in the fifty-seventh year of Her Majesty's reign.

LOCAL.

J. LITTLE, of Morden, Man., arrived on Monday's train on a business visit.

T. G. PEARCE, of Agricola, returned from Parry Sound on Thursday's train of last week.

J. R. STEWART and N. D. Burch arrived from Seattle on Monday's train on R. F. Smith's certificates. They went to Ft. Saskatchewan.

PART of the material for Gibson & Hall's brewery, Mill flat, South Side, arrived on Monday's train. The brewery will be at work in a couple of weeks.

L. ADAMSON, of Point le Pie flats, returned from a visit to Scotland on last Thursday's train. He was accompanied by a friend, Mr. George Russell.

The passengers by 1st Thursday's train crossed the river in wagons on the ice, and those by Monday's train crossed in boats, so that the delay in traffic by the breaking of the ice in the river this season was much less than usual.

THE ice began to run out of the river about five o'clock on Monday afternoon. It ran so thickly all night that it was impossible for a boat to cross until morning. In the morning it was practically clear, and mails and passengers were crossed without trouble in small boats.

A trot on the race track yesterday, half mile, best two in three, $10 a side, between Geo. Hislop's "Handful" and C. Gallagher's "Black" was broken off short by the bit of Gallagher's horse breaking and his bolting the track. He ran through town but no serions damage was done.

THE Rose Maiden will be placed before the public again on Tuesday the 1st May, the proceeds of the concert will be devoted to the Edmonton Philharmonic society. The price of admission has been reduced for this production, for reserved seats 50c., unreserved 25c. Second part will consist of instrumental and vocal solos, quartettes,etc.

AT Rose Maiden practice held on Tuesday night last a society was formed to be named the Edmonton Philharmonic Society. F. H. Andrews appointed secretary and the following ladies and gentlemen were chosen a committee pro tem to report at next meeting to be held Monday night next: Mrs. Jellett, Mrs. Foster, Mrs. Hockley, Messrs. Becher, Hearn, Spurr, Round, May and Randall.

IT is estimated that the cash sales of fur at Edmonton for the present season have amounted to $16,000 and that they will aggregate $25,000 before its close. Although this is not as large a money value as the sales of last year, owing to the lower prices it represents a greater quantity of fur. A very large proportion of the furs dealt in here are lynx and they are worth only half what they were last year, and only about a quarter of what they were some years ago.

P. W. ANDERSON, student missionary from Knox college Toronto, arrived on Thursday's train and preached in the Presbyterian church Edmonton on Sunday evening. He will take charge of Presbyterian mission work at Ft. Saskatchewan and outlying points for the summer. He will hold services at Ft. Saskatchewan, Horse hill, Sturgeon river, Partridge hill and Beaver hills. H. S. Ferguson, student missionary, who has been at Ft. Saskatchewan for nearly a year will take up mission work at Beaver lake.

As intimated in the last issue of the BULLETIN the Baptist Young People's Union will give an open meeting devoted to temperance in the Baptist church building tomorrow (Friday) evening, when a programme consisting of an address by the president,and songs and instrumental music will be rendered by the members of the Union assisted by a number of their friends, who have kindly consented to contribute to the evening's entertainment. The doors will be open at 7:30 p.m. and the programme will commence at 8 o'clock. All are cordially invited to be present.

H. GOODRIDGE and J. H. Kelly will start down the river for Battleford on Saturday with five flatboats loaded with 90 tons of oats, barley, potatoes and sundries for the police at Battleford and for the Indian department at several points along the river as well. There are 3,000 bushels of oats for the police and 1,000 bushels of barley and 350 bushels of potatoes for the Indian department. The flatboats are 14 x 30, 2½ feet deep, and are now launched. Mr. Dewan will go by land to receive freight at the several points. The shipment includes hardware for Pitt.

PRAIRIE fires have been running savagely in all directions during the past few days. The hot weather has dried up the dead vegetation with great rapidity, and the fires are consequently more destructive than would naturally be expected at this season of the year. The high wind of to-day is fanning the flames fiercely. In a large majority of cases these fires have been deliberately started by settlers themselves for their own purposes, regardless entirely of the safety of their neighbors. People seem to be so infatuated on this point that it would require a police man on each quarter section at least to keep the fire from being started. The law provides for the punishment of those who set the fires, but the trouble is to catch the person and prove the act.

SAW MILLS BURNED.

On Wednesday morning about half past twelve o'clock the mill hands employed in Moore & Macdowall's saw mill at the White Mud, sixty miles up the river, noticed that the mill was on fire. Although every effort was made to stop the fire it had gained too much headway and in a very short time the building was totally destroyed together with about 3,000 feet of lumber that was in the mill. There were two engines and boilers, the damage to which could not be estimated at the time John Kelly, manager of the mill left. The lumber dressing machinery can probably be refitted so that it is not a total loss. About 15,000 logs were taken out during the past winter for sawing during the present summer. These are about twenty-five miles further up the river than the mill and are all right so far, but unless they can be sawn this summer they will deteriorate very greatly in value. The cause of the fire can only be conjectured. The mill was running on Tuesday and it is possible that some of the saw dust may have become ignited, but did not burst into flame until after smouldering for hours. A heavy forest fire was raging about half a mile away but it is scarcely possible that fire could have been carried so far when there was no wind. The mill hands had been fighting the forest fires previously in order to save the hay stacks, and had secured the mill from being reached by the fire. Mr. Kelly says the woods are very dry this season especially considering how late the spring is, and that unless rain falls soon there will be great destruction of timber. He believes that fires are set purposely by the White Whale lake Indians not far from the mill. The light snow fall of last winter and its complete disappearance owing to the present hot weather is the cause of the exceptional lack of moisture in the woods. Prairie fires were raging all over Stony Plain as he passed coming to Edmonton, but he did not hear of any destruction of buildings up to that time. The total loss to Moore & Macdowall is estimated at $8,000, on which there was no insurance.

BOARD OF TRADE.

The adjourned general quarterly meeting of the Edmonton board of trade was held in the council chamber on Tuesday evening at 8 o'clock. The president, John Cameron, in the chair. There was a good attendance of officers and members. The following officers and members of the council were present: President, John Cameron; vice-president, J. A. McDougall; secretary, I. Cowie; treasurer, Jas. McDonald; councillors Walker, Bellamy, Lines, Blowey and Kirkpatrick.

Moved by Jas. McDonald, seconded by T. W. Lines, that the minutes of the meeting of April 11th be adopted.

Moved by J. A. McDougall, seconded by G. R. F. Kirkpatrick, that the clause in the minutes of last quarterly meeting relating to membership fee and quarterly contributions be reconsidered.

Moved by N. D. Beck, seconded by A. D. Osborne that consideration of the question of the initiation fee and annual subscriptions be postponed until the council of the board make a recommendation based on an estimate of expenditure to be presented to a special meeting.

The question being raised as to what fee should be charged until this recommendation was made and acted upon,the president ruled that as a matter of expediency the original fee of $3.00 per annum, payable quarterly, be accepted until the question of dues is finally settled.

Moved by Thos. Bellamy, seconded by T. W. Lines, that all members who have paid $5.00 annual dues be refunded $3.50.

A letter from J. H. Picard and others and the reply made by the secretary were read.

It was moved in amendment by N. D. Beck, seconded by W. G. Ibbotson, that the question of refund to those who have paid $5.00 be postponed until the next general meeting, but this proposed amendment was withdrawn.

Moved by T. W. Lines, and seconded by C. M. Woodworth, that this meeting endorse the letter written by the secretary to J. H. Picard and others on Feb. 17th.

Moved by Isaac Cowie, seconded by E. C. Emery that this board give a hearty vote of thanks to Mayor McCauley and Mr. Kirkpatrick, who so ably represented our interests as delegates to Ottawa on the bridge question. Unanimously carried.
